DIARY NOTES

DD/S

7 July 1966

Colonel White called to advise that the Director wants to retain his Chrysler Imperial and I in turn contacted [REDACTED] and instructed him to put this in A-1 shape to ensure its continued operation. The Director wants to retain the old Cadillac for occasional use by visitors and special occasions. I told [REDACTED] to put the Cadillac into working order but put it in the garage and not release it for general service.

[REDACTED] called about chauffeurs [REDACTED] who are sitting around actually doing nothing at the present time. One of them will be available to the Deputy Director to be appointed in the near future. Meanwhile, I told [REDACTED] to put them back to work with the regular chauffeurs. The Director will keep his driver [REDACTED] and all other Deputies will keep their same drivers.
